

Lettuce soup

1-2 whole green onions, chopped

4 garlic scapes chopped fine from last week's box, can use crushed garlic cloves also

1 pound ground beef

I browned the beef with the above veggies and then added my water, bringing it to a boil.

I then added:

2 potatoes diced

2 beef bouillon cubes.

I brought that all to a boil while I got my lettuce ready. I chopped up about 4 cups of both types of lettuce and added it to the soup and added some garlic-pepper seasoning and simmered that for awhile.

You could also put the soup in smaller ceramic bowls, place a thick slice of good bread-toasted on top and top with your favorite cheese and put in the broiler until the cheese is melted (French onion soup style)

Enjoy everyone!!
